

Guinevere's Gift

Guinevere's Gift was founded to better children's lives in a variety of ways, focused on three main areas.

First and foremost, we promote positive emotional development, mainly by targeting those of impressionable age; generally from 8-13 years old.

Secondly, we seek to improve the well being of victims of crime, abuse, neglect or loss. Integration into productive society is often challenging, therefore we strive to be a supportive avenue to help this transition.

Lastly, we focus on our children's current educational needs. We believe that education is the cornerstone to a productive adult life. Providing for both physical and mental needs will always be a priority for the success of our organization.
